About me

Motivated and results-oriented Computer Engineering graduate with a strong foundation in software development and a passion for problem-solving. I aim to leverage my programming skills and project experience to contribute to innovative software solutions at a dynamic tech company.

Education:

Bachelor of Science in Computer Engineering

Near East University, Cyprus

Graduated: June 2024

GPA: 2.7/4.0

Relevant Courses: Data Structures, Algorithms, Database Systems, Web Development

Work Experience:

Web Development Intern

Webomax, Istanbul

April 2023 - August 2023

- Developed and maintained web applications using React.js and Node.js.
- Worked on both front-end and back-end development, ensuring responsive design compatibility.
- Collaborated with a team of developers to design and implement new features, and integrated applications with databases.
- Conducted code reviews and optimized the existing codebase for performance improvements.

Front-end Development Intern

Tekbim LTD, Nicosia

March 2024 - May 2024

- Developed projects using Vue.js and enhanced them with advanced technologies such as Nuxt.js for SEO and Server-Side Rendering (SSR).
- Worked on the back-end focusing on API performance and integrated with databases.

Skills:

Languages

- HTML5, CSS3, JavaScript, TypeScript

Frameworks and Libraries

- React, Redux, Next.js, Gatsby, Vue.js, Nuxt, Angular, RxJS
- Three.js

CSS Frameworks

- Bootstrap, Tailwind CSS, Material UI, Sass/SCSS

Testing Tools

- React Testing Library, Cypress, Jasmine

Development Tools

- Git, GitHub, npm, Webpack, Babel, Figma

Design and Optimization

- Responsive Design, UI/UX Development
- Performance Optimization (lazy loading, code splitting, asset optimization)

API Integration

- RESTful APIs, Fetch API, Axios
- GraphQL, Apollo Client

Additional Skills

- SEO, CDN, WordPress
- Progressive Web Apps (PWA)
- Server-Side Rendering (SSR) with Next.js or Nuxt.js
- Remote Work Experience (Zoom, Slack, GitHub)

General Skills

- Problem-solving
- Team collaboration
- Effective communication
- Time management

Projects:

E-commerce Website

Sneaker Marketplace

Developed a dynamic sneaker marketplace using:

- Technologies: React.js, Next.js, Redux, Tailwind CSS
- Testing: Cypress
- API Integration: Fetch API

Key features include user authentication, real-time product search, and shopping cart functionalities.

Deployed on Netlify.
